

Fing agent

context

dit document beschrijft de installatie van de Fing agent op Debian

installatie

- gebeurt als een **snapp** package.
- eerst even rondkijken:

```
snapp info fing-agent
```

- installeer:

```
snapp install fing-agent
```

- voer uit:

```
/snapp/fing-agent/current/script/connect-fing-agent.sh
```

```
root@UVMkve:~/snapp/fing-agent/current/script# ./connect-fing-agent.sh
Connecting fing-agent:network
Successfully connected fing-agent:network
Connecting fing-agent:network-bind
Successfully connected fing-agent:network-bind
Connecting fing-agent:network-status
Successfully connected fing-agent:network-status
Connecting fing-agent:network-setup-observe
Successfully connected fing-agent:network-setup-observe
Connecting fing-agent:network-observe
Successfully connected fing-agent:network-observe
Connecting fing-agent:firewall-control
Successfully connected fing-agent:firewall-control
Connecting fing-agent:removable-media
Successfully connected fing-agent:removable-media
Connecting fing-agent:system-observe
Successfully connected fing-agent:system-observe
Connecting fing-agent:log-observe
Successfully connected fing-agent:log-observe
Connecting fing-agent:hardware-observe
Successfully connected fing-agent:hardware-observe
Restarted.
All snapp connections attempted.
```

- check de service:

```
snapp services
```

bestanden

- /opt/snapp/fing-agent
 - conf/fingagent.properties: oa logging level
- /var/snapp/fing-agent/common/log: logfile

problemen, problemen

- open `/var/snap/fing-agent/common/log/fing-agent.log`
- (her)installeer in `-dev` mode:

```
snap install fing-agent --devmode
```

werking
