

Installatie

context

dit document beschrijft de installatie van Home Assistant

Docker

1. download de image:

```
docker pull homeassistant/home-assistant
```

2. start de container:

```
docker run -d --name homeAssistant -p 8123:8123 homeassistant/home-assistant
```

3. open een browser op `http://<DockerHost>:8123`
4. doorloop de wizard: **CREATE MY SMARTHOME**

Debian
