

preferred domain controller

context

dit document beschrijft de werking van preferred domain controller

inhoud

- It's just a preferred setting and will not prevent Lansweeper from contacting other DC's if the preferred ones are not available.
- the Lastlogon attribute for user scanning specifically, it will contact all DCs in any case, since Lansweeper needs to find the highest value (most recent logon)
- set the DCs that are nearest to the assets that you are scanning to speed up the queries.
