

Open-Audit: backup

context

dit document beschrijft hoe je Open-Audit backupt en restoret

backup

bestanden

- maak een backup van `/usr/local/openaudit`

database

```
mysqldump -u openaudit -popenauditpassword --routines --extended-  
insert=FALSE openaudit > /tmp/openaudit_mysql.sql
```

restore

bestanden

- zet backup terug naar `/usr/local/openaudit`

database

```
mysql -u openaudit -popenauditpassword openaudit < /tmp/openaudit_mysql.sql
```

reset

bestanden

- zet backup terug naar `/usr/local/openaudit`

database

```
mysql -u openaudit -popenauditpassword openaudit < /usr/local/open-audit/other/openaudit.sql
```

problemen, problemen

- nog niets
