

Linux services beheren

context

dit document beschrijft hoe je op Synology Linux services beheert

servicebeheer

gebeurt vanuit commando `synoservice`

```
synoservice --list  
synoservice --stop <serviceNaam>  
synoservice --start <serviceNaam>  
synoservice --restart <serviceNaam>  
synoservice --enable <serviceNaam>  
synoservice --disable <serviceNaam>
```

voorbeelden

winbind herstarten

```
synoservice --stop winbindd && synoservice --start winbindd
```

status SSH service

```
synoservice --status ssh-shell
```

status CUPS pauzeren

```
synoservice --pause cupsd
```
